Space Friendly

Affordable

Innovative Designs

Made to Order

Smart & Functional

International Standards

Redefining Concepts Maximizing Spaces

SpaceMax Indoor Solutions is the first company in India to launch 'made-to-order' hide away Wallbed systems and space saving furniture concepts. We create tailor made designs that fit an individual's requirement as each individual and home is unique. Whether designing a single piece of furniture or the entire interiors, our philosophy is to create designs with a balance of form & functionality.

Patented Spring Balance Lift Mechanism (SBLM) System

This is used in our Wallbeds. SBLM™ has a patented technical engineering advantage over any other Wallbed mechanism now in use. The power of the SBLM mechanism is held in reserve until the Panel Bed Face is in position – then the SBLM Power Pack is adjusted to bring the bed into perfect balance. It is safe, easy to use and comes with our three year On-site warranty.

Our Core Strengths

Redefining Concepts
Maximizing Spaces

Spacemax is the first furniture company in India to introduce innovative space friendly and multi-functional furniture concepts that are offered as tailor made solutions. Our Smart furniture concepts can be bought as individual products or can be integrated into a design theme.
